

## **Is NovaSure right for me?**

The outcome of an in-depth consultation with your healthcare provider can determine if NovaSure is right for you. Women who experience heavy menstrual bleeding will want to talk to their doctors about all the treatment options available to them. In general, women who choose the NovaSure procedure often suffer from severe, heavy menstrual bleeding or long-lasting painful periods that affect their quality of professional and social life.

**Could NovaSure® be right for you? Check all that apply in the quiz below and then talk to your doctor to find out!**

- My period affects my quality of life.
- I am bothered by the amount of bleeding or the pain that I have during my period.
- My period makes me feel depressed, tired or moody.
- My life would improve if I could decrease or completely eliminate my periods.
- I would like to learn about a simple procedure that can help me take control of my period.
- I am sure I do NOT want any (more) children in the future.
